Gold Standard Advocates to Continue Their Organization,

ALTHOUGH CLAIMING SILVER IS DEAD

They Hold That the People Must Be Educated on Finance From Their Point of View.

New York, March 28 .- The annual meeting of the central council of the National Sound Money league convened in this city today, J. S. Morton of Nebraska presided. Eighteen vice presidents of the league were elected.

Treasurer A. B. Hepburn was at once called upon for his report. Mr. Hapburn stated that the receipts of the lengue last year were \$12,000 and the expenses \$4300. The expenditures had been for the distribution of literature.

Mr. E. V. Smalley, general secretary, presented to the central council his annual report, in which he said:

In presenting to the governing body of this league my report on the operations of the past year I desire first to congratulate the members of the central council and of the executive committee on the very encouraging results that have been accomplished in combating the dangerous free silver delusion and in spreading sound ideas of National finance. The formidable movement for opening the min; to the free coinage of silver at the obsolete ratio of 18 to 1 with gold has been steadily declining since its defeat at the presidential ejection of 1896. The State elections of last fall showed enormous changes on this question in the States where the movement for lowering the money standard had been most scrive and successful. The States of Oregon, Washington, Cali-

fornia, Wyoming, South Dakota, Nebraska and Kansas were captured by the sound money forces and changes were effected in the political complexion of the legislatures of those and other States, which give the control of the United States acnate for a least six vers to come to the state. at least six years to come to the oppon-ents of all forms of cheap money legisla-tion and of all schemes for the repudiation

tion and of all schemes for the repudiation of public or private debts.

1. cmc. (ClPhThelblighds00 79800 04 40

The new congress is for the gold standard in both its branches, and the evident impossibility of securing any legislation to make silver instead of gold the standard money metal has produced a new discouragement that has resulted in fresh desertions from the silver ranks. Only a few politicians who committed themselves so politicians who committed themselves fully to the cheap silver do inserves so fully to the cheap silver dollar defusion in 1896 that there is no line of retreat open to them now insist upon the readoption of the Chicago platform by the National democratic convention of 1900.

The masses of voters who gave an en-ausiastic support to the Chicago platform only three years ago now show no interest to the silver question, and only in the South is there at present any demand in the public press that it be revived as a leading issue in the next presidential campaign. The present indications are that it there is any mention of the free coinage of silver in the next democratic National platform there will be nothing said about

the ratio of sixteen to one and the question will be made secondary to new issues that are now taking shape in the public mind. The National Sound Money league may fairly claim some credit for the remarka-ble change of opinion on the elections of ble change of opinion on the elections of last year in the Western States. Our publications were widely distributed by local committees in all those States. Our publications were widely distributed by local committees in all those States, and they furnished facts and arguments which were used by the sound money speakers. Our morthly paper, Sound Money, was mailed regularly to all the weekly newspapers in the South and the West, and the editors of those papers found in its columns fresh topics for their own writing and statements and arguments which they often copied entire. The paper has proven to be a very effective means for disseminating a very effective means for disseminating

ound money ideas.

"In Union

There is Strength."

The strength of every human being consists in the union, the harmonious working together, of every part of the human organism. This strength can never be obtained if the blood is impure. The blood goes to all parts. Purify it, or there can be no "union" and therefore no health or "strength."

Hood's Sarsaparilla is the standard prescription for purification of the blood. It never disappoints.

Eczema - "My daughter had eczema and it affected her eyes. The doctor said It was incurable. Her skin is now smooth and white and all on account of Hood's Sarsaparilla. I have taken it for weakness and can now walk three or four miles easily, Mrs. E. A. HENRY, Sauk Centre, Minn.

Sick Headache - "For years I tried different medicines for my sick headaches. Found no relief until I used Hood's Sarsaparilla. It is marvelous in its cures." Mas. HENRY MILLER, DUNKIRK, N. Y.

indigestion — "Hood's Sarsaparilla tands high in our family as the cure for ndigestion end loss of appetite. It is exellent." Mrs. W. H. Comman, 119 E. Chesinut Street, Waltham, Mass.

Scrofula—" After 20 years of suffering with a cancerous sore on her nose and having it removed by physicians, my mother is happy for being completely cured by Hood's Sarsaparilla. It took il bottles to accomplish it. Her face is smooth, no scar," Miss E. A. Stoxus, Epping, N. H.

"The statement of my daughter is exact."
Joseph Stoxus, Epping, N. H.

Orip. "Was in very bad condition after n attack of grip. Nothing heiped me and almost gave up hope. I am strong and sel better now than in twenty years, all be-ause I took Hood's Sarsaparilla which hade my blood rich and pure." John O. honcan, 669 Rossell Ave., indianapolis, Ind.

neumatism — Inflammatory rheusem caused me suffering so that I could sleep or walk. Had no appetite and cine soemed useless. Finally used its Sarsaparilla which took away all "Mas. Stella Norsis, Marion, Ohio. Cood's Sarsaparilla

SOUND MONEY LEAGUERS THE SAMOAN COMPLICATIONS

Germany Objected to Instructions Given to the American Admiral.

Berlin, March 28 .- The correspondent here of the Associated Press has obtained on the highest authority at this capital the following explanation of a feature of the Samoan question which has lately arisen:

On the report that the American government cabled to its admiral at Samon to act in accordance with the decision of two of the three powers, the German government made carnest representations to the American ambassador, Andrew D. White, that the Berlin treaty requires the concurrence of the three powers and called attention to the dangers which were sure to arise if there was anything like a violation of the treaty. The American government made a frank and conciliatory answer, which has caused much satisfaction here. It recognized the necessity for unanimity on the part of all three powers under the treaty as a condition of any settled policy. The Amerlean government, it is said, is responsible for its representative in Samea.

In consequence of the stories regarding Mataala having sanctioned sectarian tyranny, the German government assured Mr. White that all its influences would be exerted to avoid this.

Washington, March 28 .- The facts stated in the preceding dispatch are confirmed here. Its effect will be to allay any fears that may have been felt that a diplomatic rupture with Germany over the Samoan question was possible. It is possible that an effort will now be made by the three governments to bring about a settlement of matters in dispute.

Manwhile, if any emergency should arise calling for tramediate action, Admiral Kantz will support the majority of the governments represented. His orders are intended to cover cases where one of the representatives of the different governments refuses to consent to what a majority favors where imme-

J. N. Rogers of Colorado and Senator

J. N. Rogers addressed the delegato the money problem into great promigrounds of the Transmississippi exposition, under a call issued by this league and under the management of the officers of the league. The call invited the advocates of all phases of opinion concerning the currency of the country to attend the convention and take part in an open debate. Many silver. Another phenomenon is the fact rency of the country to attend the colvention and take part in an open debute. Many of the most conspicuous advocates of the gold standard, of a doubtful standard and of flat paper money, with no standard of value came to the meeting, delivered addresses and took part in the general discussion. The meetings occupied three days not believe the change would be immediate.

diresses and took part in the general discussion. The meetings occupied three days and on each day three sessions were held, each of which was attended by a large audience. The debates were printed to the newspapers and stimulated thought and discussion on money problems all over the West and the general effect was no doubt to make decisive the sound money victories woo about a month later in the Western State elections.

The general secretary recommends to the central council that the work of the league be continued during the coming year on the same lines heretofore following; that the Chicago office be kept open; that the monthly paper be continued, and that such documents be issued from time to time as may appear to be called for by the condition of politics and public discussion on the money question. If, after the opening of the campaign of 1900, it shall oppear that the platform of no important political party contains a demand for the absudomment of the gold standard or for the issue of any form of money worth less than its face value in gold, then the league can conclude that its work has been accomplished and can safely dishand. Such a happy consumination does not now look as probable, as we might wish, but it is not impossible. If, on the other hand, one of the great party can be constructed by the construction of the control of the campaign of the campaign of the control of the campaign of t

summation does not now look as probable, as we might wish, but it is not impossible. If, on the other hand, one of the great parties adopts again the Chicago platform. Then they could form a firm standard. The convention at 1 o'clock was entorgoid and enters upon a new effort to secure the parties adopts again the Chicago platform and enters upon a new effort to secure the abandonment of gold as standard money and the free and unlimited coinage of legal tender effort of diars, then the Fague will by Harry Villard, J. Kennedy Tod and tender effort above a large work at hand, for which it the committee of the league held a meeting been making careful preparations ever large.

has been making careful preparations ever since it was organized, three years ago.

Ex-Senator Joseph M. Carey, vice real dent for Wyoming, wrote as follows: "I agree with you about the necessity of keeping up the league. It certainly should be kept alive until after the next president associate trusurer, and E. V. Smalley of Minnesota, general secretary.
